Instructions

You must turn in a brief project proposal that provides an overview of your idea and also contains a brief survey of related work on the topic. Proposals should be approximately two pages long, and include the following information:

- Project title and list of group members.
- Overview of project idea. This should be approximately half a page long (one column). Try to answer the following questions:
 - Why the problem is important?
 - What challenges you need to solve?
- A short literature survey of 4 or more relevant papers. The literature review should take up approximately one page (two columns).
- Description of potential datasets you plan to use in the experiments.
- Plan of activities, including what you plan to complete by the midway report and how you plan to divide up the work.

The grading breakdown for the proposal is as follows:

- 40% for clear and concise description of the proposed idea and method.
- 40% for the literature survey that covers at least 4 relevant papers.
- 10% for the plan of activities.
- 10% for the quality of writing.

The project proposal will be due by **11:59 PM on Friday, February 22nd**, and should be submitted via Gradescope.
